

Blindfold Club: Irresistibly Tantalizing v0.1 BETA

Written by Darren J Smith & Amy Truong

Welcome to Blindfold Club, give this a quick read as preparation! :)

Prereading:

We make reference to the 'Outer Labia' (also known to as the 'Labia Majora') during 'Irresistibly Tantalizing'. Take a look at this image to ensure you know exactly where this is.

We also make reference to the 'Vulva', which is simply reference to the external area of her vagina (Outer and Inner Labia, Mons Pubis, Clitoris etc.)

Props

Your cologne or aftershave

A light bed sheet, or towel.

A blindfold or light scarf. Preferably silk or thin cotton.

Preparation:

- Ask her to take a shower or bath. Don't skip this part- we want our partner to feel clean, refreshed and relaxed.
- Ensure the room is warm and free from any drafts.
- Start burning some incense or scented candles.
- Get some of your aftershave or cologne ready, place it on the nightstand or near the bed.
- Put some soothing, relaxing background music on. I highly recommend this enigma mix: <https://www.youtube.com/watch?v=-zi498llglY> - it's a perfect compliment.
- Turn off your phones / put them on silent. Not vibrate!

You may choose to listen to the audio script alone, through your earphones or headphones. However, we recommend sharing the experience with your partner by playing it on a speaker maybe from your laptop, iPhone or smartphone speakers.

If you choose to wear earphones, we suggest wearing some loose fitting pants/bottoms with pockets (maybe with zip pockets?), or using an ipod that can clip on your clothing. We recommend putting the earphone cable under your t-shirt so that it doesn't get in the way.

Before you press play, tell her to relax and just enjoy the sensation of your touch. There is absolutely nothing else she should be doing. Tell her there are no expectations after this.

The most important thing to remember is to relax and enjoy the journey! You really can't go wrong. You don't have to follow the script 100% perfectly if you don't wish. Or, if something doesn't make sense to you, just default to kissing that area of her body!

On that note... let us start :)

To Begin

- Blindfold her with a light scarf or blindfold. If you're using a scarf, ensure the knot is to the side or front of her head so that she's not resting on it at the back.
- Lay her naked on your bed, covered only with a light bed sheet. Make sure it's not tucked into the mattress.
- Tell her, "Just relax and focus on my touch."
- Press play and follow along.

Audio Script

The full audio script is below. You may want to become familiar with it in order to answer any questions your significant other may have. However, I recommend not showing her the full script. We want to keep it as a surprise for her....

Welcome to 'Irresistibly Tantalizing by Blindfold Club', my dear.

By now, your beautiful woman should be laying naked on the bed, covered only with a bed sheet and a blindfold.

Sit on top of her (and the sheet), with your knees either side of her body and your butt gently resting on her pelvic area.

5 seconds silence

Comfortable? Let's see if you can obey my commands. To begin, kiss her on the lips softly and seductively, with no tongue.

15 seconds silence

Bring yourself back to an upright kneeling position, straddling her body. Place one hand, palm down, softly and gently on her stomach (and over the sheet) and just feel the rise and fall of her breath for a few moments, whilst taking a few slow, deep breathes yourself.

15 seconds silence

Move your fingers slowly up her body and towards her face. Stroke lightly around her lips with your fingers or thumb.

20 seconds silence

Now, lean down and slowly kiss one side of her neck, explore the curve of her neck with your kisses.

10 seconds silence

Make each kiss as soft and as sensual as you can. As high up as the ear, and as low down as the collar bone. Mix it up with some light blowing, just enough so that her skin tingles. Take your time.

40 seconds silence

You may wish to move bring your lips to the other side of her neck, if you haven't already.

40 seconds silence

When you're ready, sit back upright whilst touching her lip gently with your index finger. Hold it there.

5 seconds silence

Lightly run your finger nails down both of her arms at the same time, and back up again. A bit faster now, do this a few times.

5 seconds silence

Pick up one of her hands and kiss the back of it. Move the touch of your lips along her index finger and slowly take it into your mouth.

15 seconds silence

Suck and lick all around her finger. Vary your speed, stroke and pressure... make it wet with your saliva... and then enjoy the rest of her fingers...

30 seconds silence

Once you're done, gently place her hand back on the bed and pick up her other arm. Stroke up and down a few times on the underside of her arm.

10 seconds silence

Run your fingers up her arm and tickle her palm with your fingers. You may want to suck a finger or two whilst you're playing with her like this. Remember to keep this soft and slow.

20 seconds silence

Gently place her arm back on the bed.

3 seconds silence

I want you to kiss her again, but style it differently. Maybe use your tongue in a new way - change the pressure or speed. Go with the flow.

30 seconds silence

Give her an eskimo kiss. Rub your noses back and forth.

8 seconds silence

Bite her lip VERY lightly.. then sit up again.

8 seconds silence

Pull down the sheet to reveal her alluring breasts and stomach.

5 seconds silence

Take a moment to enjoy looking at them. Then touch her cheek softly with the back of your fingers... slowly move that touch to the back of her ear and play with her hair a little.

15 seconds silence

Now, move the tips of your fingers down her neck and stop to stroke her collar bone for a moment.

8 seconds silence

Next, run both of your hands towards her breasts and slowly trace circles around the nipples... but don't touch the nipples... as tempted as you may be.

20 seconds silence

Slowly make the circles bigger to encompass her full breast.. and then make the circles smaller again. Keep playing with her breasts like this. Enjoy your woman and listen to her reaction.

40 seconds silence

Next, run the five fingers of one hand down her stomach with a slightly firmer touch. Grab the sides of her waist and kiss her stomach, softly. Kiss all over her stomach... and then up and down the sides of her body.

40 seconds silence

Start moving your kisses towards her breasts. Kiss around the bottom or underside of one breast whilst gently grabbing and teasing her other breast with your hand.

15 seconds silence

Switch breasts. Kiss the other breast now whilst teasing the other with your hand.

15 seconds silence

Suckle her nipple with your mouth, just like a baby would... suck it nice and gently.. feel her reaction to this.

15 seconds silence

Flick the nipple with the tip of your tongue... she'll show you that it feels good.

15 seconds silence

Circle her nipple with your tongue

15 seconds silence

Now, do the same with her other breast. Suckle first...

15 seconds silence

Now flicking...

15 seconds silence

Now, circle your tongue...

15 seconds silence

Kiss her again.

15 seconds silence

This is my favorite bit - get off the bed and stand up for a second. Break all physical contact with your lady. Stand there for a moment and just enjoy her beauty.

10 seconds silence

Grab your cologne from the nightstand and spray a tiny amount on your finger. Dab it lightly just under her nostrils and give her a cheeky kiss.

10 seconds silence

Once you're done, move the sheet so that it is only covering her pelvic area.

5 seconds silence

She has no idea where you're going to touch her next... play with that knowledge... Stroke your favorite part of her body with your fingers or hand for a second or 2... then another part of her body... then another part.. try and make each next touch a surprise... take your time exploring her body with your hands...

60 seconds silence

Now slowly part her legs open with a hand on each knee. Her knees should be slightly bent. Get back on the bed and kneel between her legs.

8 seconds silence

Run your hands up and down the underside of her leg... and take a few moments to touch the back of her knee.

15 seconds silence

Lay your hands on the top of each knee and gently start making circular movements with your thumb as your hand very slowly begins to move up her thigh. Again, take your time. She likes being teased.

20 seconds silence

...when you get to the top of her thigh, begin gently stroking down each side of her outer labia with your index fingers.

10 seconds silence

Experiment with different strokes. Either just downwards. Or upwards. Or down and up. Or Alternative sides. Try varying the speed or the pressure. Lighter is usually better...have fun and watch her reaction to see what she likes.

40 seconds silence

Next, place your palm firmly (but lightly) on her vulva. The tops of your fingers should be touching the bottom of her stomach, and your palm should be directly over her clitoris. Just sit with your palm there, still. You might find that she moves her pelvis around to create some friction between her clitoris and your hand, let her do this.

10 seconds silence

Use your other hand to stroke around the whole length of her legs...

20 seconds silence

Move your palm off her vulva and kiss down the inside of her thighs.. alternatively kissing each thigh.

40 seconds silence

Once you've arrived, pull your lips away from hers and take a moment to look at her beautiful pussy.

5 seconds silence

I'm going to leave you two now. You've been enjoying Blindfold Club... see you next time.
